

## UNDERWATER PHOTOGRAPHY

We ask that members who have good underwater photos of life in the sanctuary contribute them regularly to the Parks Victoria ***Sea Search Species Image Library***.

*Please provide digital images with location, habitat, date, scientific and common names of both flora and fauna.*

The Parks Victoria (PV) Sea Search manual provides guidelines on methods to be used, including a Species Image Library. You can access the manual on the following link:

<http://parkweb.vic.gov.au/get-involved/volunteer/sea-search>

The Species Image Library methods page is:

[parkweb.vic.gov.au/\\_data/assets/pdf\\_file/0005/561272/1.2.pdf](http://parkweb.vic.gov.au/_data/assets/pdf_file/0005/561272/1.2.pdf)

(The location code for Ricketts Point Sanctuary is RIC)

Please forward images to **Marine Ranger, Emily Verey** at [emily.verey@parks.vic.gov.au](mailto:emily.verey@parks.vic.gov.au)

### **This data provision is very important:**

- It will add to Parks Victoria's existing database about the Bay, and greatly assist them in the management of the Sanctuary
- It will foster close co-operation between ourselves and Parks Victoria
- It helps meet our aims to foster education about the Sanctuary and to advance knowledge about its marine life and environment

If you require any further information, please don't hesitate to ask your snorkel leader or David Langmead, Snorkel Co-ordinator [dlangmea@bigpond.net.au](mailto:dlangmea@bigpond.net.au) or 0418 389 212.
